Private Cooking Experience at Andronis Arcadia

A Journey into Santorini & Mediterranean Gastronomy
Discover the essence of Santorini's culinary heritage through an exclusive, hands-on cooking experience, set within the serene surroundings of our private garden.

Rooted in the principles of seasonality, simplicity, and authentic Greek hospitality, this experience invites you to connect with local flavors and traditions in a refined yet warm environment.

The Experience

Your journey begins with a guided walk through our traditional bostani (garden), where you will handpick fresh, seasonal vegetables, fruits, and herbs.

Under the guidance of our Chef, you will then be introduced to essential preparation techniques, including workspace organization and knife skills, before actively participating in the creation of a traditional Greek menu.

The experience concludes with a shared dining moment, where all guests gather around the same table, enjoying the dishes they have prepared together — a true expression of the Greek philosophy “sharing is caring.”
